## Plasma Ruggedized Solutions is Now ITAR Registered

*Plasma Ruggedized Solutions* announced today it is now International Traffic in Arms Regulations (ITAR) registered.

*Plasma Ruggedized Solutions, the leader in Conformal Coating services is ITAR registered, granting them the right to service & manufacture qualified military products for export.*

Companies receiving this certification demonstrate they have the knowledge and understanding to fully comply with the Arms Export Control Act (AECE) and International Traffic in Arms Regulations, as well as having corporate procedures and controls in place to ensure compliance. Meeting ITAR Certification implies **Plasma Ruggedized Solutions** has met requirements pertaining to organization structure, documentation, corporate policy, training and procedures. **Plasma Ruggedized Solutions** now has the right to service, manufacture and ship military products for export.

"This certification demonstrates our commitment to expanding our services to the military market" said James Stameson, President & CEO of **Plasma Ruggedized Solutions**. "We believe **Plasma Ruggedized Solutions** is the ideal supplier to companies in markets requiring complex technical services, comprehensive quality systems and exemplary manufacturing throughput. Our markets include global customers in the military, medical and technology industries.

**Plasma Ruggedized Solutions** has been servicing the military sector for over 20 years as a conformal coating service provider and has participated as a partner in programs that involved exporting. With this certification **Plasma Ruggedized Solutions** now expands its offering to fully include servicing and shipping of military products that are exported, without requiring a partner.

"We have performed well thus far in servicing the domestic military market and with this certification, we look to expand our market footprint in Europe and with NATO customers" said Mr. Stameson.

*Plasma Ruggedized Solutions is a Global Provider of Custom Ruggedized Engineering Solutions across Industry*
